For tier 2 refurbishment of HMOs with 7 to 10 lettable rooms, conversions of a commercial unit to a residential and refurbishment of 2 or more units, a bespoke valuation will be required.

We'll aim to use a desktop valuation for standard bridging finance where possible, providing:

- The purchase price/property value does not exceed £1.5million
- The loan has a gross LTV of 75% or below. When multiple properties are used as security, an AVM can be used for each property where the overall LTV is 75% or below
- The AVM achieves an acceptable confidence level as determined by Rightmove.

AVMs are not available for:

- Refurbishment properties
- HMO and multi-unit properties
- New builds or properties recently converted in the last 24 months

- Properties that have never been occupied
- Properties with more than two acres of land
- Properties built using Modern Methods of Construction
- Properties above or adjacent to commercial properties
- Flats
- Leasehold properties with less than 85 years remaining on the lease
- Listed buildings
- Suspected poor condition.

We'll notify you at DIP stage if you qualify for an AVM. If an AVM can't be used a physical valuation will be required.
